

# INDEX BY LEARNING EXPERIENCE

LEARNING EXPERIENCE	PHYSICS TOPIC	EQUIPMENT	PAGE
<i>Absorption and partial transmission</i>	Waves	Microwave kit	38
<i>Ampere's Law - <math>F \propto I_1 I_2</math></i>	Electromagnetism	Current balance	18
<i>- <math>F \propto I/d</math></i>	Electromagnetism	Current balance	<b>18</b>
<i>- <math>F \propto I</math></i>	Electromagnetism	Current balance	18
<i>Acceleration. due to gravity</i>	Motion	Linear Air Track	34
<i>Aurora - demonstrate the effect</i>	Atomic Physics	Vacuum tubes	29
<i>Band absorption spectra</i>	Wave props of Light	Spectroscope	46
<i>Beats</i>	Waves	<b>CRO</b>	6
<i>Cathode rays - observe nature</i>	Atomic Physics	Vacuum tubes	29
<i>- deflected by magnetic field</i>	Atomic Physics	Crooke's tubes	28
<i>- have mass</i>	Atomic Physics	Crooke's tubes	28
<i>- travel in straight lines</i>	Atomic Physics	Crooke's tubes	28
<i>Charge, current and voltage</i>	Electrostatics	Van de Graaff	49
<i>Charge on the electron</i>	Atomic physics	Millikan's Oil Drop	41
<i>Circular motion</i>	Motion	Video camera	52
<i>Collisions on linear air track</i>	Motion	Video camera	52
<i>Collisions using trolleys</i>	Motion	Video camera	52
<i>Conservation of kinetic energy</i>	Collisions	Linear Air Track	34
<i>- in 1-Dimension</i>	Collisions	Collisions in 2-D	12
<i>- in 2-Dimensions</i>	Collisions	Collisions in 2-D	12
<i>Conservation of momentum</i>	Collisions	Linear Air Track	34
<i>- in 1-Dimension</i>	Collisions	Collisions in 2-D	12
<i>- in 2-Dimensions</i>	Collisions	Collisions in 2-D	12
<i>Constant velocity</i>	Motion	Linear Air Track	34
<i>Continuous emission spectrum</i>	Waves	Spectroscope	46
	Wave Props of Light	Spectrometer	43
<i>Coulomb's law - <math>F \propto 1/d^2</math></i>	Electrostatics	Coulomb's law	15
<i>- <math>F \propto q_1 q_2</math></i>	Electrostatics	Coulomb's law	15
<i>Diffraction- around objects</i>	Waves	Microwave kit	38
<i>- grating (calibrate)</i>	Wave Props of Light	Spectrometer	43
<i>- grating</i>	Wave Props of Light	Microwave kit	38
<i>- double slit</i>	Wave Props of Light	Microwave kit	38
<i>- single slit</i>	Wave Props of Light	Microwave kit	38
<i>Doppler effect</i>	Wave Props of Light	Microwave kit	38
<i>Electric fields</i>	Electrostatics	Van de Graaff	49
<i>Electrical energy produced by a falling mass</i>	Energy	Energy Interconversion	24
<i>Electromagnetic radiation - nature</i>	Waves	Microwave kit	38
<i>Electrostatic interactions between charges</i>	Electrostatics	Van de Graaff	49
<i>Emission spectra - observe and match</i>	Wave Props of light	Spectrum tubes	30
<i>Emission spectrum - sodium</i>	Wave Props of Light	Spectrometer	43
<i>Energy chain - determine changes</i>	Energy	Energy Interconversion	24

<b>LEARNING EXPERIENCE</b>	<b>PHYSICS TOPIC</b>	<b>EQUIPMENT</b>	<b>PAGE</b>
<i>Gravitational potential energy produced by an electric motor</i>	Energy	Energy Interconversion	24
<i>Induced emf</i>	Electromagnetism	<b>CRO</b>	<b>6</b>
<i>Inertial mass</i>	Motion	Linear Air Track	34
<i>Inverse square law</i>	Waves	Microwave kit	38
<i>Ionisation</i>	Electrostatics	Van de Graaff	49
<i>Law of refraction</i>	Waves	Microwave kit	38
<i>Law of reflection</i>	Waves	Microwave kit	38
<i>Line absorption spectra</i>	Wave Props of Light	Spectroscope	46
<i>Line spectra</i>	Wave Props of Light	Spectroscope	46
<i>Line spectra - observe and estimate</i>	Wave Props of Light	Spectrometer	43
<i>Lissajous figures</i>	Waves	<b>CRO</b>	<b>6</b>
<i>Magnetic forces between 2 current-carrying wires</i>	Electromagnetism	Current balance	<b>18</b>
<i>Mass of an electron</i>	Electromagnetism	Current balance kit	<b>21</b>
<i>Measure B inside a solenoid</i>	Atomic Physics	Mass of electron kit	36
<i>Motion in 1 dimension on linear air track</i>	Electromagnetism	Current balance kit	21
<i>Motion in 2 dimensions on bead table</i>	Motion	Video camera	52
<i>Motion of falling objects</i>	Motion	Video camera	52
<i>Motion in 1 dimension on linear air track</i>	Motion	Video camera	52
<i>Motion in 2 dimensions on bead table</i>	Motion	Video camera	52
<i>Motion of falling objects</i>	Motion	Video camera	52
<i>Polarisation</i>	Wave Props of Light	Microwave kit	38
<i>Projectile motion</i>	Motion	Video camera	52
<i>Radio transmission</i>	Waves	Microwave kit	38
<i>Radio wave reception</i>	Waves	<b>CRO</b>	<b>6</b>
<i>Refractive index of a prism</i>	Waves	Spectrometer	43
<i>Sensitivity of the human ear</i>	Waves	<b>CRO</b>	<b>6</b>
<i>Simple harmonic motion</i>	Motion	Video camera	52
<i>Spectral lines of hydrogen</i>	Atomic Physics	Spectrum tubes	30
	Atomic Physics	Spectrometer	43
<i>Standing waves</i>	Waves	Microwave kit	38
<i>- in an organ pipe</i>	Waves	<b>CRO</b>	<b>6</b>
<i>Superposition principle</i>	Waves	<b>CRO</b>	<b>6</b>
<i>Thin film interference</i>	Wave Props of Light	Microwave kit	38
<i>Total internal reflection</i>	Waves	Microwave kit	38
<i>Tracks made by <math>\alpha</math>, <math>\beta</math> and <math>\gamma</math> rays</i>	Nuclear Physics	Cloud Chamber	10
<i>Uniformly accelerated motion</i>	Motion	Linear Air Track	34
<i>Van de Graaff generator</i>	Nuclear Physics	Van de Graaff	49
<i>Vector addition of electrostatic forces</i>	Electrostatics	Coulombs law	15
<i>Voltage output from school supply</i>	Electricity	<b>CRO</b>	<b>6</b>
<i>Voltages, AC and DC</i>	Electricity	<b>CRO</b>	<b>6</b>
<i>Waves - periodic</i>	Waves	<b>CRO</b>	<b>6</b>
<i>Wavelength of sodium light</i>	Wave Props of Light	Spectrometer	43
