

Rap sheet 2 for Rap point 2

Teachers instructions

Make a back up of this presentation by doing a ‘**save as**’ and renaming this *Rap sheet 2 original*.

Lesson ideas

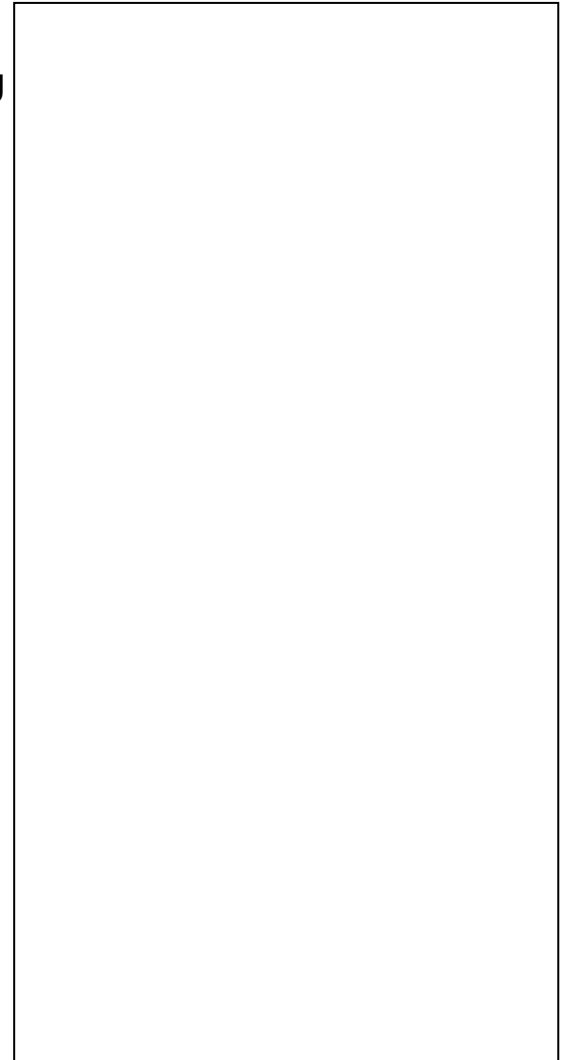

1. Use the second slide from this presentation (Granpa and granddaughter) and brainstorm with the class the conversation that occurred between the two. Add text box/es to add this conversation to the slide. Maintain the different font styles for *granpa* and *granddaughter*.
2. On the Granpa slide, write what Granpa is saying in the speech bubble. *Tip: to make a speech bubble, go to **autoshapes** on the toolbar at the bottom of the screen, select **callouts** and select the style you want. Now draw the speech bubble on the slide (you can resize it and move the pointer later. Then repeat this for the granddaughter on the next slide.*
3. Print the last slide and copy it onto A3 paper. *Tip: you may need to adjust your copier to print darker.* Use this for the optional activity in Rap point 2, lesson 3 of the teaching program.
4. Stir your creative juices to come up with your own way of using these slides. Please share your great moments of inspiration with us 😊
*Tip: How to copy slides. In **slide sorter view**, select a slide by clicking once (highlight border appears around the slide). Now copy (**edit** menu then select **copy**) the slide. Place the cursor where you want the new slide to go (click before, after or between slides). Now paste the slide you copied (**edit** menu, **paste**). Edit your new slide as you like to create your own activity.*

That was not a nice thing to say to Granpa.

Insert your own drawing or image
of the granddaughter.

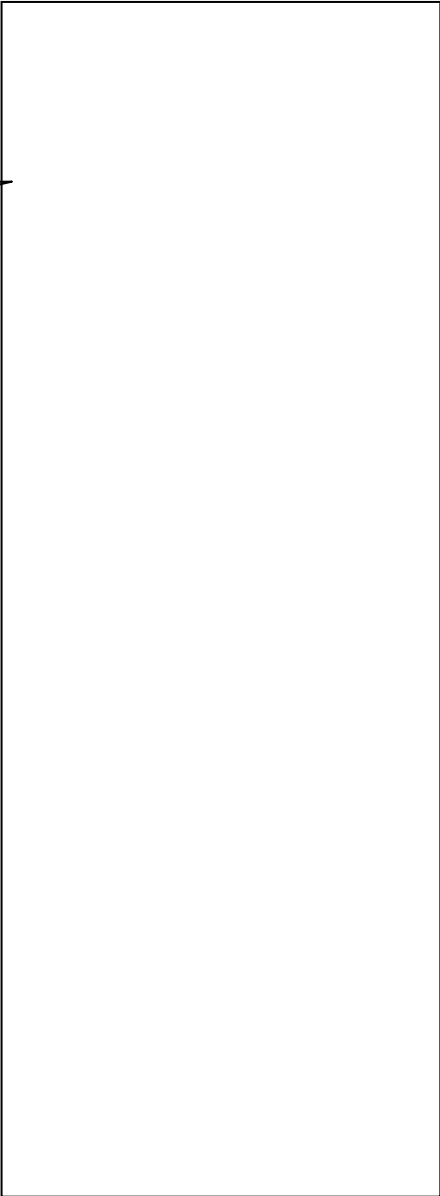

Insert your own drawing
or image of Granpa.
